AJCC’s OnlineNOW

Speeds Critical Care Research to Our Readers

The American Journal of Critical Care now offers an exclusively online publication process that disseminates cutting-edge research on high acuity and critical care in the most timely and efficient manner possible.

With OnlineNOW publication, the full-text versions of featured AJCC articles appear exclusively on our Web site, www.ajcconline.org. Abstracts of OnlineNOW articles are printed in the corresponding month’s print version of AJCC. Because more full-text articles can be published online than in print, the time from acceptance to publication is greatly reduced. OnlineNOW articles are peer reviewed, copyedited, formatted, and citable just like AJCC’s print offerings.

For authors, OnlineNOW offers several features:

- Articles are indexed in PubMed just like printed AJCC articles. Researchers in high acuity and critical care can read and cite your work sooner.

- Articles are promoted via blast email to AACN members and therefore reach the same audience as the print edition. We also post Facebook and Twitter alerts about new OnlineNOW articles.

- Abstracts that appear in AJCC’s digital replica are hotlinked to the full-text Web version at www.ajcconline.org, so readers can access your work with the click of a mouse.

- OnlineNOW provides attractive fully formatted reprints for participating authors at a sharply reduced cost.

If you have specific questions about AJCC’s OnlineNOW, contact Managing Editor Melissa Jones at melissa.jones@aacn.org.
