All persons listed as authors must meet all of the following criteria for authorship:

- I certify that I (1) have made substantial contributions to the conception and design of the study or acquisition of data; (2) have made substantial contributions to drafting the manuscript or revising it critically for important intellectual content; and (3) have given final approval of the version of the manuscript to be published.

- I certify that the manuscript represents valid work and that neither this manuscript nor one with substantially similar content under my authorship has been published or is being considered for publication elsewhere, except as described in an attachment.

- I certify that this manuscript consists entirely of an original work that, in whole or in part, does not copy or otherwise infringe upon the copyright or other proprietary rights of another party.

- I certify that I have obtained, and will deliver if requested, all necessary permissions in writing to use, include, reproduce, and distribute any and all portions of the manuscript owned by other parties in the manuscript, in the periodical, and in any format and/or medium now known or later conceived or developed.

- I certify that I have obtained, and can provide, written authorization to disclose any identifiable or potentially identifiable private health information of patients discussed in my article.

- I attest that, if requested, I will provide data or will cooperate in obtaining and providing data on which the manuscript is based for examination by the editors or their assignees.

## 3. Copyright Transfer.

In reviewing and editing this manuscript (text, tables, and figures), I hereby transfer, assign, or otherwise convey all copyright rights and other rights incidental thereto, including reprints, electronic media, and audiovisual, exclusively to the American Association of Critical-Care Nurses (AACN), in the event such work is published in *American Journal of Critical Care (AJCC)*. The author(s) will have the right to use this material, provided permission is asked in writing in advance from AACN, so long as the copyright notice that appears on the issue of the periodical in which the manuscript is first published and a full citation to the periodical on every such copy are included.

### NIH Funding/PubMed Central.

For those authors whose research was funded by the National Institutes of Health (NIH), the editors and publishers acknowledge that the authors retain the right to provide a copy of the final manuscript to the NIH upon acceptance for journal publication for archiving in the PubMed Central database as soon as possible, but no later than 12 months after publication by the journal. (For NIH reporting purposes, AACN defines “acceptance” of a manuscript as occurring at the time the editors have approved the final page proof as accurate and ready for public release.) Please note, however, that submission of the manuscript to PubMed Central is the author’s responsibility.
